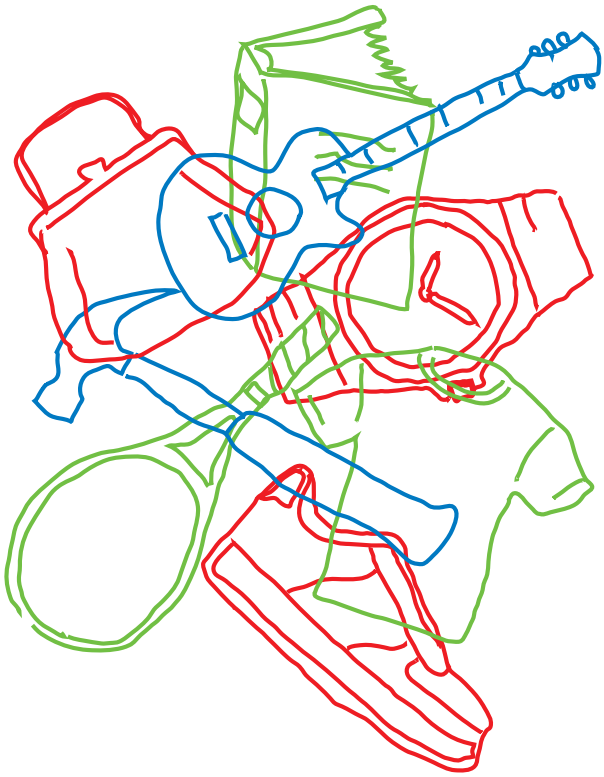
Swap Party Rules



- Bring as many items as you would like to swap. Items should be clean and in good condition. The more you bring, the more you can swap!
- When you arrive at the Swap Party, you will be given one Swap Token for each item you bring.
- Add your items to the display. Once the items are at the Swap Party, they are no longer yours.
- Nothing can be claimed until the host opens the Swap.
- Spend some time browsing the items and chatting to the other swappers.
- Once the host announces the Swap is open, you may claim as many items as you have Swap Tokens.
- If two or more of you want the same item, put one each of your Swap Tokens in a hat for the host to draw a lucky winner.
- Place bottles, cans, paper and other items in the recycling bins provided.

Have fun.

Recycle Right...
to reduce our impact on the environment.

For information on kerbside collections and to find drop off locations for items ranging from computers to corks and from cartridges to plastic bags visit
